

*"All human beings have three lives:
Public, Private, and Secret" G.G.M.*

CERTAINTY BY DESIGN

WHEREVER YOU ARE IN THE WORLD, WE PROTECT YOUR PRIVACY

**PROTECTION OF PRIVATE
COMMUNICATION:
VOICE VIDEO DATA**

AVENURE offers global solutions for secure communication, designed according to the highest standards of military encryption, to protect confidential communications: voice, video and data.

European headquarter based in Switzerland and excellent cosmopolitan team, are our cornerstone.

Strong drive for technological innovation, focus on maximum confidentiality and attention to the needs of a high demanding public, characterize our approach.

Safe communications without any external intrusion, is our Mission.

AVENURE Server Network is the added value of our encrypted communication services.

In complete autonomy, we manage a network distributed in those Countries in the world that pay more attention to Privacy.

AVENURE technological ecosystem boasts:

- ✓ proprietary servers distributed in every continent
- ✓ private lines not accessible by other operators
- ✓ software and hardware integrated thanks to our design

BlackSense

SECURITY AND PRIVACY
BLENDED TOGETHER IN A
TECHNOLOGICAL JEWEL

AVENURE *BlackSense* with CERTAIN OS

only apparently a last generation smartphone.

Born to protect, it includes a secure operating system and an encryption system designed according to the most advanced military standards.

With *BlackSense* you can live an Exclusive Privacy Experience, in a protected environment where every voice, video and text communication, will remain private and safe from unwanted recordings or listening:

- ✓ wherever you are in the world
- ✓ your data will remain secret
- ✓ with an excellent audio / video quality

Designed for an easy and immediate use, *BlackSense* guarantees total privacy with no need to change your habits.

To start communicating safely you only need a **Wi-Fi, 3G or 4G data connection**.

BlackSense secure operating system is enriched by **Smart PIN System**, to guarantee the absolute inviolability of data Privacy in all circumstances.

**MAXIMUM SAFETY WITH
AVENURE *CRYPTO STACK***

AVENURE team has developed a proprietary **Crypto Stack**, thanks to an original implementation of the most reliable and secure algorithms in the world, in the field of End to End encryption.

AVENURE **ZRTP End to End** with **Peer to Peer Communication**, guarantees the certainty of Privacy inviolability, both in private and business.

BlackSense

**FOR AVENURE SAFETY
IS A MUST**

BlackSense

**END TO END PEER TO PEER COMMUNICATIONS
INVIOLEABLE AND UNLIMITED
WITHIN AVENURE WORLD**

The **encryption system with ZRTP algorithm**, universally recognized as the safest in the world, has been implemented and improved by our team to ensure the maximum protection level to a high demanding public.

The decision to use an **End to End** encryption and a **Peer to Peer** system allows a safe communication exclusively among AVENURE users.

A closed circuit, an absolutely inviolable environment where Privacy experience means:

- ✓ **Unlimited Secure Calls and Video Calls**, without any delay in communication
- ✓ **Unlimited Secure Text Messages**
- ✓ **No Periodical Credit Top Up**
